

After Care Programme

The Juvenile Justice Act provides for an After Care Program for children without family or other support who leave institutional care after they attain 18 years of age to sustain themselves during their transition from institutional to independent life. The objective of this after care program is to enable such children to adapt to the society and to encourage them to move away from an institution based life.

State Government has its two State After Care Home where children between ages 18-21 years are provided institutional Care.
